McMENAMINS COFFEE ROASTERS

Roasting beans from small-farm growers

to produce the best cup of coffee

McMenamins approaches specialty coffee roasting with the same passion for attention to detail that we apply to our ales, wines and spirits. Our roast masters use only beans from the highest-quality coffea arabica species – plants that produce coffees of elegant, complex flavors. This is why McMenamins coffee beans come from small-farm growers producing shade-grown plants of the highest caliber; it's the first step toward insuring the finest possible cup o' joe.

At McMenamins Coffee Roasters, our varietal and blended coffees are roasted in a state-of-the-art German-made Probat drum roaster, said to be the finest brand in the industry. Drum roasting allows the deep aroma and flavor of the smoke to permeate each bean.

Although we roast upwards of 40,000 pounds of beans a year, the roasting is done in small batches, one at a time. McMenamins coffees are roasted to order for our pubs, restaurants and hotels on a weekly basis to ensure freshness.

High quality, aroma-roasted coffees from McMenamins Coffee Roasters are available for enjoyment and purchase in all of our locations. You can purchase our coffees in our gift shop or at our online store.

Stop by for a tour on 421 NE Knott St. Portland, OR:
Monday through Wednesday
8 a.m. to 4 p.m.
